How to Draw Like a Pro

1. **Start with guidelines.** Every drawing begins with **dashed guide lines**: simple circles, ovals and cross lines that show where everything goes. Draw them very lightly.
2. **Follow the steps.** The **black lines** show what to draw in each step. The grey lines are what you have already drawn. Read the short instruction under each box.
3. **Erase the guidelines.** In the last step the guidelines disappear. Erase yours too, and your drawing will look clean and professional.
4. **Practise on the next page.** Every drawing has its own full practice page with a light grid to help you get the size and shape right.
5. **Check the difficulty.** Look for the stars: ★ easy, ★★ medium, ★★★ challenge.

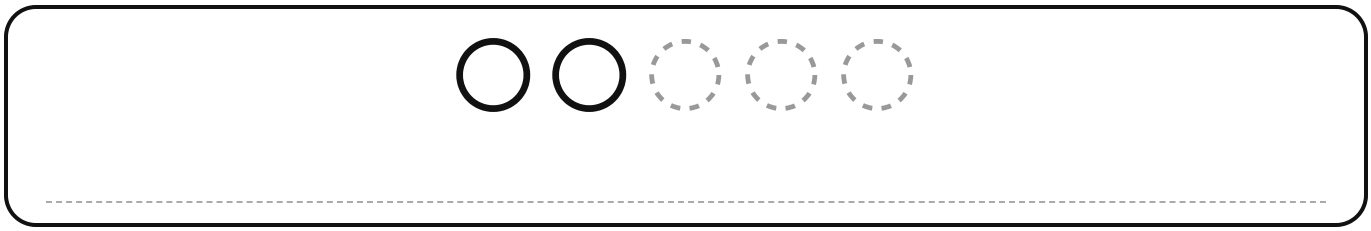

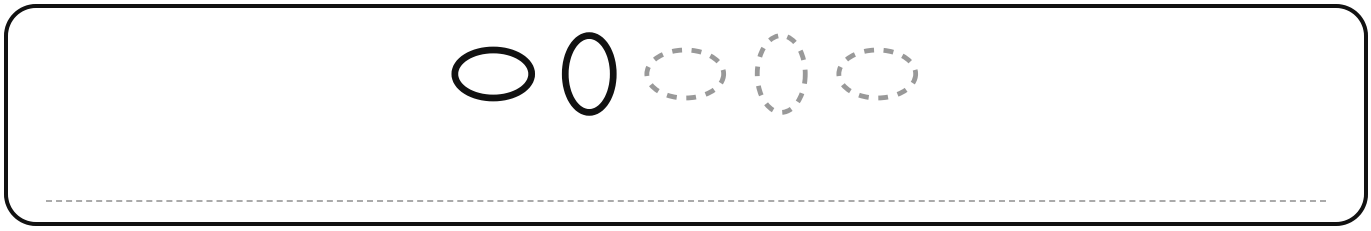

1. Guidelines **2. Build it up** **3. Erase & finish**

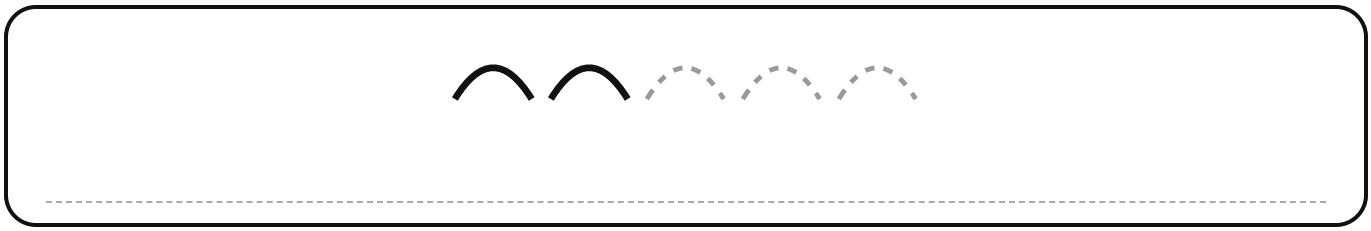

Your art kit: HB pencil • soft 2B pencil for shading • eraser • black fine-liner pen • colored pencils or markers

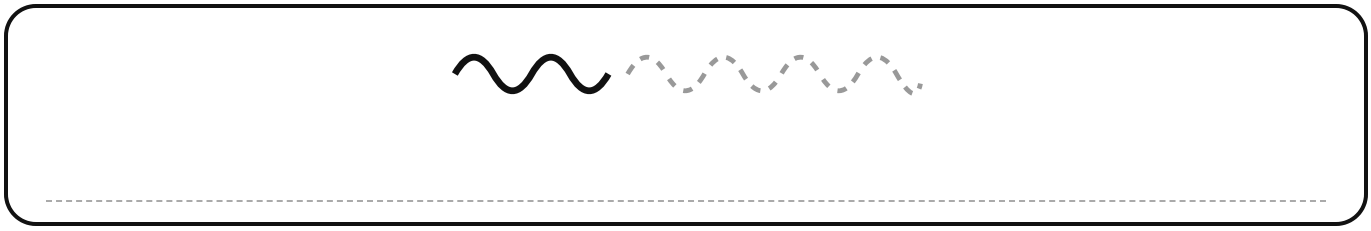

Warm-Up Time!
