How to Use This Book

1. **Pick a drawing.** Start with anything you like — there are 100 to choose from!

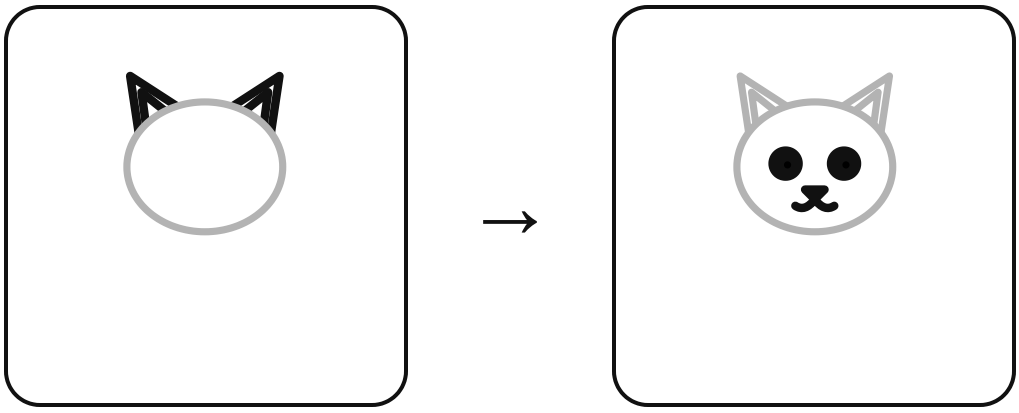

2. **Follow the steps.** In each box, the **dark black lines** are what you draw next. The **light grey lines** are what you already drew.

3. **Draw lightly with a pencil.** Small, soft lines are easy to erase and fix.

4. **Use the big box.** Every page has a space that says **Your Turn!** — draw it there.

5. **Add color!** Go over your lines with a marker, then color it in any way you want.

6. **Mistakes are OK!** Every artist practices. Try again and it gets easier every time.

light grey = already drawn **black = draw this now**

You will need: a pencil • an eraser • crayons, colored pencils or markers
